Permit Descriptions

CAFRA - A Coastal Area Facility Act permit is required to construct residential, commercial, public, transportation, utility and energy-related facilities in the coastal area as defined by the Act.

Federal Consistency Activity: Certain federal permits, not limited to the U.S. Army Corps of Engineers Dredge and Fill Permits, require certification by the DEP prior to the issuance of the permit by the federal agency.

Flood Hazard Area: A Flood Hazard permit or verification is required for disturbances within the floodway or floodplain in areas regulated under the Flood Hazard Area Control Act.

Freshwater Wetlands: A Permit (Letters of Exemption, Letters of Interpretation, Statewide General Permit, Open Water Fill, Individual, Transition Area Waiver, Water Quality Certificate) is needed prior to engaging in a regulated activity in or around freshwater wetlands and associated transition areas. A Flood Hazard Area Permit, an U.S. Army Corps of Engineers Dredge and Fill Permit, and a Water Quality Certification may also be required.

General Groundwater Petroleum Products Cleanup: This general permit authorizes the surface water discharge of treated groundwater previously contaminated with petroleum products.

NJPDES permits: A permit is required for the discharge of pollutants to surface and groundwater, a discharge from an indirect user or the land application of municipal and/or industrial residuals. (A more comprehensive definition of activities, which require a permit, may be found at N.J.A.C. 7:14A-2.4)

Solid Waste Facility: A permit is required to conduct or operate any solid waste facility as defined under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq., and N.J.A.C. 7:26-1 et seq.

Highlands Resource: A Highland Preservation Area Approval is required for regulated activities within the Highland Preservation Area as defined in the Highlands Water Protection & Planning Act Preservation Area Rules. Highlands Applicability Determinations verifies certain exemptions allowed by the regulations.

Tidal Wetlands: A Coastal Wetlands Permit is needed to excavate, dredge, fill or erect structures on coastal wetlands.

Treatment Works Approval: A TWA permit is required for the construction, modification or operation of a treatment works, including sanitary/industrial sewage pretreatment or treatment systems, sewage conveyance systems, sewer extensions and subsurface sewage disposal systems.

Waterfront Development: A permit is required for any project involving the development of waterfront near or upon any tidal or navigable waterway in the State.

Coastal Wetlands: A permit authorizing disturbances to Mapped Tidal Wetlands under the Wetlands Act of 1970, N.J.S.A. 13:9A"

General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA). In addition, this publication lists status of Highlands application and Highlands Applicability Determinations.

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

Appeals on Applications

Any individual who would like to appeal a decision on an application should direct their remarks to:

Office of Legal Affairs
Attn: Adjudicatory Hearing Requests
Department of Environmental Protection
PO Box 402
Trenton, NJ 08625-0402

EVENTS OF PUBLIC INTEREST

DATE: December 9, 2014

TIME: 9:30 a.m.

PLACE: Water and Wastewater Operator Licensing
Public Meeting
401 East State Street, 4th floor Conf. Room
Trenton, NJ

NOTICE OF PUBLIC COMMENT PERIOD

REGARDING A SOLID WASTE TRANSFER STATION FACILITY PERMIT RENEWAL

The New Jersey Department of Environmental Protection, Division of Solid & Hazardous Waste hereby gives notice that it has tentatively approved a Solid Waste Facility Permit renewal application regarding the operation of the existing Solid Waste Transfer Station Permit for Allegro Sanitation Corp. TS/MRF.

The application for a Solid Waste Facility Permit renewal was submitted in accordance with the requirements established at N.J.A.C. 7:26-2. The facility is currently permitted to accept waste types 10, 13, 13C, 23 and 27 with an approved capacity of 500 tons per day of waste.

The public comment period on the draft permit action begins on the date of the publication of this notice and will close within thirty (30) days of this publication. Any interested person may submit written comments during this period to the Department concerning the draft permit action to:

Anthony Fontana Chief
New Jersey Department of Environmental Protection
Division of Solid & Hazardous Waste
Bureau of Solid Waste Permitting
Mail Code 401-02C
P.O. Box 420
Trenton, New Jersey 08625-0420
(609) 633-1418

Upon written request of any interested party, which raises the issues of fact relevant to the proposed agency action within thirty (30) days of this publication, a public hearing will be scheduled regarding the proposed agency action.

The application and all other supporting documents, as well as the draft Solid Waste Facility Permit and fact sheet are available for inspection at the above noted office of the Department's Division of Solid & Hazardous Waste, the office of the Secaucus Town Clerk and the office of the Hudson County Clerk.

Anyone who would like to obtain copies of the draft permit and a fact sheet for the facility should notify Ms. Lisa Offredo at the above address or contact her at (609) 984-5950.

NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION NOTICE OF INTENT TO SETTLE LETTER OF INTERPRETATION-LINE VERIFICATION

TAKE NOTICE THAT THE DEPARTMENT OF ENVIRONMENTAL PROTECTION intends to issue a Modified Flood Hazard Area Individual Permit, authorized under the Flood Hazard Area Control Act Rules (N.J.A.C. 7: 13-1.1 et seq.). The applicant has submitted revised plans, which are in compliance with the Flood Hazard Area Control Act Rules. The subject property is located on Block 902, Lot 11 in the Township of Pequannock, Morris County. The applicant is John & Carlo Covello. This settlement will satisfy the appeal of File No. 1431-02-0003.1, FHA 070001.

IN THE MATTER OF:

John & Carlo Covello
File #: 1431-02-0003.1, FHA 070001
Block(s): 902, Lot(s): 11
Township of Pequannock, Morris County

Comments regarding this intended settlement or requests for a copy of the project plan should be sent to: Bureau of Inland Regulation, Central Region Supervisor, Division of Land Use Regulation, NJDEP, PO Box 420, Trenton, NJ

08625, or the office may be reached by telephone: (609) 777-0454. Comments must be received by NJDEP within 10 days of this publication, or by November 29, 2014.

**Notice Regarding Adoption of Site Specific Water Quality Management Plan Amendment Applications
Pursuant to P.L.2013, c.188**

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP), Office of Coastal and Land Use Planning, has adopted the following Water Quality Management Plan site specific amendment requests pursuant to P.L. 2013, c.188 which was enacted on January 15, 2014. This legislation modifies some aspects of the Water Quality Management Planning Program for a period of two years. P.L. 2013, c.188 directs the Department to accept and process certain site specific amendment proposals despite the absence of a wastewater management plan in compliance with the Water Quality Management Plan rules. Pursuant to the provisions of the Statewide Water Quality Management Planning rules (N.J.A.C. 7:15-3.4), notices of amendment proposals and the Department's subsequent final action are to be published in the New Jersey Register (NJR). In accordance with P.L. 2013, c.188, notice of adoption of site specific amendments for projects or activities having a wastewater planning flow of less than 50,000 gallons per day (gpd) or being less than 100 acres in size is to be published in the Department of Environmental Protection (DEP) Bulletin.

Notice(s) of adoption of site specific amendment(s) for changes in sewer service area designation, which may include new or expanded wastewater treatment facilities, are individually provided below:

Adopted Amendment to the Tri-County Water Quality Management Plan (WQMP)

Public Notice

Pinnacle Place

Take notice that **November 3, 2014**, pursuant to the provisions of the New Jersey Water Quality Planning Act, N.J.S.A. 58:11A-1 et seq., and the Statewide Water Quality Management Planning rules (N.J.A.C. 7:15-3.4), an amendment to the Tri-County WQMP was adopted by the Department of Environmental Protection (Department). This amendment updates the GCUA Wastewater Management Plan (WMP) adopted December 10, 2008 to include the Pinnacle Place development in the GCUA WTF SSA.

Pursuant to P.L. 2011, c. 203, as amended by P.L. 2013, c. 188, the Department, in consultation with the applicable wastewater management planning agency, may approve the inclusion of land within a SSA notwithstanding that existing treatment works may not currently have the assured capacity to treat wastewater from such land without infrastructure improvements or permit modification. Therefore, amendments to modify a SSA may be approved if such actions are compliant with the applicable sections of the Water Quality Management Planning rule (N.J.A.C. 7:15) regardless of whether capacity has been fully assessed, however, in accordance with N.J.A.C. 7:15-5.25(h)1, the projected wastewater flow of the project has been evaluated. The proposed wastewater flow, as calculated in accordance with N.J.A.C. 7:14A-23.3 is 28,800 gallons per day. Currently, GCUA WTF is permitted to discharge 27 million gallons per day (MGD) of treated wastewater to the Delaware River under NJDPES permit number NJ0024686. The average of the last twelve months of discharge monitoring data show that GCUA WTF has discharged an average daily flow of 19.273 MGD. The additional 0.029 MGD of wastewater will not cause the wastewater generation potential of the expanded SSA to exceed the permitted capacity of the GCUA WTF.

The GCUA WTF provides treatment for the northern portion of Gloucester County known as the Consolidated District. Along with Washington Township, the Consolidated District includes Clayton Borough, Deptford Township, Glassboro Borough, Mantua Township, National Park Borough, Paulsboro Borough, Pitman Borough, Wenonah Borough, West Deptford Township, Westville Borough, Woodbury City, Woodbury Heights Borough, and portions of East Greenwich, Elk, and Monroe Townships. As part of the GCUA WMP, an environmental constraints/build-out analysis was performed for these Townships in order to identify future wastewater needs. Based on the analysis, Washington Township has a projected need to treat 0.987 MGD of additional residential wastewater flow, which is not yet connected to the GCUA WTF. The additional 0.029 MGD of planned residential wastewater flow generated from this project would be added to the current planning flow of 0.987 MGD, resulting in a new residential planning flow of 1.016 MGD for Washington Township. The GCUA WMP has been updated to reflect the SSA expansion.

In accordance with N.J.A.C. 7:15-5.24 and 5.25, environmentally sensitive areas (ESAs) have been assessed to determine what areas of the project are appropriate for inclusion in the proposed SSA. ESAs evaluated include, but are not limited to: habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, riparian zones, wetlands, steep slopes, Coastal Fringe, Coastal Rural and Coastal Environmentally Sensitive Planning Areas, beaches, coastal high hazard areas, and dunes.

Pursuant to N.J.A.C. 7:15-5.24, ESAs are defined as contiguous areas of 25 acres or larger consisting of habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, Category One (C1) special water resource protection areas, and wetlands, alone or in combination. These ESAs are not included in the expanded SSA.

In accordance with N.J.A.C. 7:15-5.24(b)1, to determine areas designated as threatened or endangered species habitat, the Department utilized the Division of Fish and Wildlife's Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, version 3.1. Areas identified by the Landscape Project as being suitable habitat for threatened and endangered species Ranks 3 (State threatened), 4 (State endangered), and 5 (Federal endangered or threatened) are not to be included in proposed SSAs except as provided under N.J.A.C. 7:15-5.24(e) – (h), or unless a site has undergone a site specific Habitat Suitability Determination prepared in accordance with N.J.A.C. 7:15-5.26 that found the site to be not suitable habitat, or pursuant with N.J.A.C. 7:15-5.24(g)2, the Department determined the ESA is not critical to a population of endangered or threatened species the loss of which would decrease the likelihood of the survival or recovery of the identified species. Review of the project site has determined that no threatened or endangered species habitat exists on site.

In accordance with N.J.A.C. 7:15-5.24(b)2, areas mapped as Natural Heritage Priority Sites are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). Review of the project site has determined that no Natural Heritage Priority Sites exist on site.

In accordance with N.J.A.C. 7:15-5.25(h)5i, riparian zones shall be protected. Riparian zones or buffers are established along all surface waters, based on the surface water body's classification designated at N.J.A.C. 7:9B, under the following regulations: the Flood Hazard Area Control Act Rules, the Stormwater Management rules, and the Water Quality Management Planning rules. A Riparian zone has been identified adjacent to the project site, and the soils onsite are identified as acidic soils (lower member of the Kirkwood Formation), therefore the required riparian buffer width for the Porch Branch is 150 feet from top of bank. The applied buffer does not encroach upon the expanded SSA, therefore the Riparian Corridor Analysis is satisfied.

In accordance with N.J.A.C. 7:15-5.24(b)4, areas mapped as wetlands pursuant to N.J.S.A. 13:9A-1 and 13:9B-25 are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). In accordance with N.J.A.C. 7:15-5.24(e)2, Letter of Interpretation, L.O.I. # 0818-06-0003.1 was submitted, which indicates the presence of wetlands on Block 52, Lot 4.01, and requires a 50 foot buffer. All though the applicant originally included Block 52, Lot 4.01 in their proposed SSA, they subsequently removed the SSA from this lot, avoiding any wetlands on the site, thereby satisfying N.J.A.C. 7:15-5.24(b)4.

In accordance with N.J.A.C. 7:15-5.25(h)6, proposed development disturbance is not to be located in areas with steep slopes, defined as any slope greater than 20 percent. There are no steep slopes on the subject site.

In accordance with N.J.A.C. 7:15-5.24(c), lands within certain coastal planning areas (Coastal Fringe, Coastal Rural, and Coastal Environmentally Sensitive Planning Areas) are not included in the SSA. The project site is not in a coastal planning area.

Pursuant to N.J.A.C. 7:15-5.24(d)1, areas with Federal 201 grant limitations that prohibit the extension of sewers to serve development in specified areas such as wetlands and floodplains are excluded from proposed SSAs. There are no grant conditions for this site.

Pursuant to N.J.A.C. 7:15-5.24(d)2-4, special restricted areas such as beaches, coastal high hazard areas, and dunes are not to be included in the proposed SSA. This site does not contain these areas.

In accordance with N.J.A.C. 7:15-5.25(h)3 the water supply need for the proposed project has been evaluated. The proposed project would be served by the public water supply provided by Washington Township, which is currently permitted under PWSID 0818004 to allocate 273 million gallons per month (MGM) and has a water supply surplus of 30.825 MGM. The proposed water demand of the project is 0.020 MGD or 0.611 MGM, which, when added to the current demand, is within the water supply surplus; therefore sufficient water supply is available to serve the development within the existing water allocation permit.

In accordance with N.J.A.C. 7:15-5.25(h)4, a project or activity's stormwater management is to be evaluated. However, P.L. 2011, c. 203 as amended by P.L. 2013, C. 188, directs there be a presumption that an engineered subdivision or site plan is not required. Compliance with this standard shall be demonstrated by submission of an adopted stormwater management plan and ordinance that conform with the requirements of N.J.A.C. 7:8. The project is in compliance with this standard, as Washington Township has adopted stormwater control ordinance #28-2006, which complies with the performance standards of the Stormwater Management Rules at N.J.A.C. 7:8. The county and local governments are responsible for review and implementation of the Stormwater Management rules during their review and approval of proposed development.

This amendment proposal was noticed in Volume 38, Issue 16 of the New Jersey Bulletin on August 20, 2014, and no comments were received during the comment period.

This amendment represents only one part of the permit process and other issues may need to be addressed prior to final permit issuance. Additional issues which may need to be addressed may include, but are not limited to, the following: compliance with stormwater regulations; antidegradation; effluent limitations; water quality analysis; exact locations and designs of future treatment works (pump stations, interceptors, sewers, outfalls, wastewater treatment plants); and development in wetlands, flood prone areas, designated Wild and Scenic River areas, or other environmentally sensitive areas which are subject to regulation under Federal or State statutes or rules.

**Notice of Public Comment Period Regarding Site Specific Water Quality Management Plan Amendment
Applications Pursuant to P.L.2013, c.188**

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP), Division of Coastal and Land Use Planning, has received the following Water Quality Management Plan site specific amendment requests pursuant to P.L. 2013, c.188. P.L. 2013, c.188 directs the Department to accept and process certain site specific amendment proposals despite the absence of a wastewater management plan in compliance with the Water Quality Management Plan rules. Pursuant to the provisions of the Statewide Water Quality Management Planning rules (N.J.A.C. 7:15-3.4), notices of amendment proposals and the Department's subsequent final action are to be published in the New Jersey Register (NJR). In accordance with P.L. 2013, c.188, notice of site specific amendments for projects

or activities having a wastewater planning flow of less than 20,000 gallons per day (gpd) or being less than 100 acres in size is to be published in the Department of Environmental Protection (DEP) Bulletin.

Notice of site specific amendment proposals for changes in sewer service area designation, which may include new or expanded wastewater treatment facilities, are individually provided below.

An appointment to review the file for any of the proposals may be arranged by calling the Division of Coastal and Land Use Planning at (609) 984-6888. The Department's file is available for inspection between 8:30 a.m. and 4:00 p.m., Monday through Friday at 401 East State Street, Trenton, New Jersey.

Interested person may submit written comments on any of the proposals. When providing comments, specify which proposal the comments are being provided for. All comments must be submitted within 30 days of the date of this public notice to the address cited below. All comments submitted prior to the close of the comment period shall be considered by the Department in reviewing the amendment request.

Interested persons may request that the Department hold a non-adversarial public hearing or extend the public comment period up to 30 additional days for any of the proposals. These requests must state the nature of the issues to be raised at the proposed hearing or state the reasons why the proposed extension is necessary. The requests must be submitted within 30 days of the date of this public notice to the address cited below. If a public hearing is held, the public comment period in this notice shall be extended to close 15 days after the public hearing.

Written comments should be submitted to:

Elizabeth Semple, Acting Director
Land Use Management
Division of Coastal and Land Use Planning
Mail Code 401-07C
PO Box 420, 401 East State Street
Trenton, New Jersey 08625-0420

Notice(s) of site specific proposals that qualify for review under P.L. 2013, c. 188 are individually provided below:

**Proposed Amendment to the Tri-County Water Quality Management Plan
Public Notice:**

The Estate of James and Hattie McTague Project

Take notice that the New Jersey Department of Environmental Protection (Department) is seeking public comment on a proposed amendment to the Tri-County Water Quality Management Plan, which would modify the current Gloucester County Utilities Authority (GCUA) wastewater management plan (WMP), adopted by the Department on December 10, 2008. This amendment proposal, submitted on behalf of the Estate of James and Hattie McTague, would expand the sewer service area (SSA) of the GCUA wastewater treatment plant (WWTP) to include Block 14901, Lots 22, 23, 36-39, 42 located in the Township of Monroe, Gloucester County. The SSA expansion would accommodate the proposed development of 25 4-bedroom single family homes; and 4,500 square feet of commercial/retail use.

This application has been reviewed in accordance with the Water Quality Management Planning rules, N.J.A.C. 7:15-1 et seq. and P.L. 2011 c.203 as amended and supplemented by P.L. 2013 c.188. The Department, in consultation with the applicable wastewater management planning agency, may approve the inclusion of land within a SSA notwithstanding that existing treatment works may not currently have the assured capacity to treat wastewater from such land without infrastructure improvements or permit modification. Therefore, amendments to modify a SSA may be approved if such actions are compliant with the applicable sections of the Water Quality Management Planning rule (N.J.A.C. 7:15) regardless of whether capacity has been fully assessed.

Notwithstanding, the projected wastewater flow of the project has been evaluated in accordance with N.J.A.C. 7:15-5.25(h)1. The subject development's proposed wastewater flow, calculated in accordance with N.J.A.C. 7:14A-23.3, is 0.00795 million gallons per day (MGD). Currently, the GCUA WWTP (NJDPES #NJ0024686) is permitted to discharge up to 27 MGD of treated wastewater to the Delaware River. Based on an average of the monthly average flow for the most recent twelve month period for which discharge monitoring data is available, the existing wastewater flow discharged from GCUA WWTP was calculated to be 19.3 MGD. The addition of the proposed development's projected wastewater flow, estimated as 0.00795 MGD, would not cause the wastewater generation potential of the expanded SSA to exceed the permitted capacity of the GCUA WWTP.

In accordance with N.J.A.C. 7:15-5.24 and 5.25, environmentally sensitive areas (ESAs) have been assessed to determine what areas of the project are appropriate for inclusion in the proposed SSA. ESAs evaluated include, but are not limited to: habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, riparian zones, wetlands, steep slopes, Coastal Fringe, Coastal Rural and Coastal Environmentally Sensitive Planning Areas, beaches, coastal high hazard areas, and dunes.

Pursuant to N.J.A.C. 7:15-5.24, ESAs are defined as contiguous areas of 25 acres or larger consisting of habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, Category One (C1) special water resource protection areas, and wetlands, alone or in combination. These ESAs are not included in the proposed SSA.

In accordance with N.J.A.C. 7:15-5.24(b)1, to determine areas designated as threatened or endangered species habitat, the Department utilized the Division of Fish and Wildlife's Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, version 3.1. Areas identified by the Landscape Project as being suitable habitat for threatened and endangered species Ranks 3 (State threatened), 4 (State endangered), and 5 (Federal endangered or threatened) are not to be included in proposed SSAs except as provided under N.J.A.C. 7:15-5.24(e) – (h), or unless a site has undergone a site specific Habitat Suitability Determination prepared in accordance with N.J.A.C. 7:15-5.26 that found the site to be not suitable habitat, or pursuant with N.J.A.C. 7:15-5.24(g)2, the Department determined the ESA is not critical to a population of endangered or threatened species the loss of which would decrease the likelihood of the survival or recovery of the identified species. Review of the project site has determined that no threatened or endangered species habitat exists on site.

In accordance with N.J.A.C. 7:15-5.24(b)2, areas mapped as Natural Heritage Priority Sites are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). The project site is within the Downer Natural Heritage Priority Site.

The Downer Natural Heritage Priority Site (NHPS) lies in parts of Monroe and Washington Townships, Gloucester County. The area mapped contains more than 1,000 acres. The primary area of concern is a red maple/Atlantic white cedar swamp with sphagnum spring seeps that follow the Beaverdam Branch of the Maurice River. Primary bounds for the NHPS site include the extent of the documented wetland habitat for rare plant species. Secondary bounds include additional wetlands along with other lands draining toward the wetlands, which may benefit from careful watershed management. The McTague property lies within the secondary boundary.

The McTague property is predominately an upland area. Along the southern edge of the property, a watercourse originates on lot 23 of the McTague parcels within a small wetland area and then flows through a pipe across the back of Lot 34, which is developed with a single family home. The pipe leads to an excavated ornamental pond approximately ½ acre in size in the front yard of the home. The home lies less than 20 feet from the waterbody. After passing through the pond, the watercourse flows through an outlet to a second pipe which extends about 110 feet to and under US Route 322. According to a 2014 survey of the area by Dr. Jay Kelly, a population of swamp pink lies along this watercourse about 350 feet downstream from the south right of way limit of US Route 322. The mapped location lies approximately 900 feet downstream of the boundary of the McTague property within the Glassboro Wildlife Management Area.

The Department has determined that the McTague property does not contain suitable habitat for Swamp Pink and that suitable habitat documented for Swamp Pink lies offsite. In accordance with N.J.A.C. 7:15-5.24 (g)2., the Department finds that environmentally sensitive areas proposed to be included in the sewer service area are not critical to a population of endangered or threatened species, the loss of which would decrease the likelihood of the survival or recovery of the species in the State.

A plan of one sheet entitled "Plan of Sewer Service Area Addition situate Block 14901, lots 22,23,36-39 &42, Township of Monroe, Gloucester County, New Jersey" dated 12/17/13, not revised, signed and sealed by Gary R. Civalier, P.E. and L.S. depicts the area on the site which may be included with the GCUA SSA.

In accordance with N.J.A.C. 7:15-5.25(h)5i, riparian zones shall be protected. Riparian zones or buffers are established along all surface waters, based on the surface water body's classification designated at N.J.A.C. 7:9B, under the following regulations: the Flood Hazard Area Control Act Rules, the Stormwater Management rules, and the Water Quality Management Planning rules.

In accordance with N.J.A.C. 7:15-5.24(b)4, areas mapped as wetlands pursuant to N.J.S.A. 13:9A-1 and 13:9B-25 are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). In accordance with N.J.A.C. 7:15-5.24(e)2, Letter of Interpretation (LOI) # 0811-09-0001.1 FWW 090001, dated April 2, 2009 was submitted. Areas subject to those LOIs which were delineated as wetlands, including any associated buffers, are not included in the proposed SSA.

In accordance with N.J.A.C. 7:15-5.25(h)6, proposed development disturbance is not to be located in areas with steep slopes, defined as any slope greater than 20 percent. There are no steep slopes on the subject site.

In accordance with N.J.A.C. 7:15-5.24(c), lands within certain coastal planning areas (Coastal Fringe, Coastal Rural, and Coastal Environmentally Sensitive Planning Areas) are not included in the SSA. The project site is not in a coastal planning area.

In accordance with N.J.A.C. 7:15-5.24(d)1, areas with Federal 201 grant limitations that prohibit the extension of sewers to serve development in specified areas such as wetlands and floodplains are excluded from proposed SSAs. There are no grant conditions for this site.

In accordance with N.J.A.C. 7:15-5.25(h)3 the water supply need for the proposed project has been evaluated. The proposed project would be served by the public water supply provided by the Monroe Township Municipal Utilities Authority which is currently permitted under water allocation permit number WAP 100001 and PWSID No.: 0811002 to allocate 143.690 million gallons per month (MGM) and currently has a water supply surplus of 12.024 MGM. The proposed water demand of the project, calculated in accordance with N.J.A.C. 7:15-5.25(f)1i, is 0.00798 MGM; therefore, sufficient water supply is available to serve the proposed development within the existing water allocation permit.

In accordance with N.J.A.C. 7:15-5.25(h)4, a project or activity's stormwater management is to be evaluated. Compliance with this standard shall be demonstrated by the adoption of a municipal stormwater management ordinance that conforms with the requirements of N.J.A.C. 7:8 (Stormwater Management Rules). The Township of Monroe has adopted stormwater management ordinance Section 175-40 of Chapter 175 of the Monroe Township Municipal Code, entitled Land Management, which complies with the performance standards of the Stormwater Management Rules. Consequently the requirements of N.J.A.C. 7:15-5.25(g)1 for stormwater control have been satisfied

This proposed amendment represents only one part of the permit process and other issues may need to be addressed prior to final permit issuance. Additional issues which may need to be addressed may include, but are not limited to, the following: compliance with stormwater regulations; antidegradation; effluent limitations; water quality analysis; exact locations and designs of future treatment works (pump stations, interceptors, sewers, outfalls, wastewater treatment plants); and development in wetlands, flood prone areas, designated Wild and Scenic River areas, or other environmentally sensitive areas which are subject to regulation under Federal or State statutes or rules.

Approval of this amendment would not eliminate the need for any permits, approvals, or certifications required by any Federal, State, County, or municipal review agency with jurisdiction over any project/activity. Approval of this amendment does not provide any implied approval for any other aspects of any project or needed permits and approvals.

This notice is being given to inform the public that a plan amendment has been proposed for the Tri-County WQM Plan. All information relating to the WQM Plan and the proposed amendment is located at the Department, Division of Coastal and Land Use Planning, 401 East State Street, P.O. Box 420, Mail Code 401-07C, 401 East State Street, Trenton, N.J. 08625-0420. The Department's file is available for inspection between 8:30 a.m. and 4:00 p.m., Monday through Friday. An appointment to inspect the documents may be arranged by calling the Division of Coastal and Land Use Planning at (609) 984-6888.

Interested persons may submit written comments on the amendment to WQM Program Docket, Division of Division of Coastal and Land Use Planning at the Department address cited above with a copy sent to Gary R. Civalier, P.E. of Civalier Engineering and Surveying, 12 West Mantua Avenue, Wenonah, NJ 08090. All comments must be submitted within 30 days of the date of this published notice. All comments submitted prior to the close of the comment period shall be considered by the Department in reviewing the amendment request.

Interested persons may request in writing that the Department hold a non-adversarial public hearing on the amendment or extend the public comment period in this notice up to 30 additional days. These requests must state the nature of the issues to be raised at the proposed hearing or state the reasons why the proposed extension is necessary. These requests must be submitted within 30 days of the date of this notice to WQM Program Docket at the Department address cited above. If a public hearing for the amendment is held, the public comment period in this notice shall be extended to close 15 days after the public hearing.

NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION

Notice of Public Comment Period for Request for Federal Consistency Determination

The requests for a Federal Consistency Determination for the projects listed below are reviewed under the

Rules on Coastal Zone Management, N.J.A.C. 7:7E.

PUBLIC NOTICE

Notice is hereby given that the New Jersey Department of Environmental Protection (Department), Site Remediation and Waste Management, proposes to issue the following New Jersey Pollutant Discharge Elimination System permit actions in accordance with N.J.S.A. 58:10A-1 et seq. and N.J.A.C. 7:14A-1 et seq.

The permit action prepared by the Department is based on the administrative record which is on file at the offices of the Department, Site Remediation Program, located at 401 East State Street in the City of Trenton, Mercer County, New Jersey. It is available for inspection, by appointment, Monday through Friday, between 8:30 A.M. and 4:00 P.M. Appointment for inspection may be requested through the Open Public Records Act. Details are online at www.nj.gov/dep/opra, or call (609) 341-3121. Appointments for inspection of the NJPDES file only or requests for a copy of the draft document (at a nominal charge) may be made by calling Central File at (609) 292-0400.

Comments on the draft document or a request that the Department holds a non-adversarial public hearing must be submitted in writing to the person specified below and shall be postmarked within 30 days of the date of this public notice. All persons, including the applicant, who believe that any condition set forth in this document is inappropriate, must raise all reasonable issues and submit all arguments and factual materials supporting their position by the close of the public comment period. Any request for a hearing shall state the nature of the issues to be raised. A public hearing will be conducted whenever the Department determines that there is a significant degree of public interest in the permit decision. If a public hearing is held, the public comment period shall automatically be extended to the close of the public hearing.

The Department will consider and respond to all significant and timely comments. The applicant and each person who has submitted written comments will receive notice of Department's final decision.

Written comments should be submitted to:

NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
DIVISION OF WATER QUALITY
PUBLIC NOTICE

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP) proposes to issue the following New Jersey Pollutant Discharge Elimination System (NJPDES) permit actions in accordance with N.J.A.C. 7:14A-1 et seq. and by authority of N.J.S.A. 58:10A-1 et seq. The description of each proposed permit action is contained in the accompanying table.

This public notice has been prepared for these facilities as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. Copies of the draft document are obtainable, for a nominal charge, and the administrative record is available for inspection by appointment only, Monday through Friday, by contacting the NJDEP file room at (609) 292-0400. Additional information regarding the draft document may be obtained from the contact person listed in the accompanying table.

Comments on the draft document or a request that NJDEP hold a non-adversarial public hearing on the document must be submitted, in writing, to the individual specified below (refer to the accompanying table for the appropriate permitting bureau) during the public comment period, which closes either:

1. 30 calendar days after publication of the last newspaper notice when a notice is published in the DEP Bulletin *and* a newspaper(s); or
2. 30 calendar days after publication of the DEP Bulletin notice when a notice is published in the DEP Bulletin *only*.

All persons, including permittees who believe that any condition of NJDEP's tentative decision to issue these permit actions is inappropriate must raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period. Any request for a public hearing shall state the nature of the proposed issues to be raised in the hearing. A public hearing will be conducted if NJDEP determines there is a significant degree of public interest. If a public hearing is held, the public comment period is automatically extended through the close of the hearing.

NJDEP will consider and respond to all significant and timely submitted comments. The permittee and each person who submitted written comments, will receive notice of NJDEP's final decision to issue, revoke or redraft the document.

Written comments should be submitted to the appropriate permitting bureau:

Public Notice of Proposed Permit Actions - 11/19/2014
(Division of Water Quality)

<u>Permit:</u> • Name • NJPDES No. • Type	<u>Facility Location:</u> • Address • County	<u>NJDEP:</u> • Case manager • Bureau • Phone No.	<u>Receiving Discharge:</u> • Stream or GW Formation or POTW • Stream or GW Classification • Watershed	<i>Executive Summary</i>
KINGS GRANT STP NJ0029203 DGW	Tomlinson Mill-taunton Rd Marlton, NJ 08053 Burlington County	Mike Pigliacelli Bureau of Nonpoint Pollution Control (609)633-7021	Cohansey I-PL	Ground Water Renewal Permit Action Kings Grant Wastewater Treatment Plant is permitted to discharge up to 600,000 gallons per day of treated sanitary wastewater via the three (3) existing infiltration/percolation lagoons. A buffer of mostly wooded land, comprised primarily of wetlands, surrounds the wastewater disposal areas.
MIDDLETOWN SA (TOMSA) NJ0025356 DSW Major	Center Ave Middletown Twp, NJ 07718-0205 Monmouth County	Leon Moss Bureau of Surface Water Permitting (609)292-4860	Atlantic Ocean via MCBOA SC(C2) Atlantic Coast (Sandy Hook to WhalePond)	Surface Water Renewal Permit Action This renewal is for a NJPDES permit to discharge an average of 10.8 MGD of treated wastewater, that flows continuously into the wet well at the Monmouth County Bayshore Outfall Authority's (MCBOA) Belford Pumping Station. The treated wastewater is discharged through DSN-001A to the Atlantic Ocean. The processed wastewater is treated via mechanical bar screen, grit removal tank, primary settling tank, aeration basin, secondary clarifiers and chlorine contact tanks. Residuals generated by this permittee are now regulated under general permit authorization NJG0198269.
TNSA SEWERAGE TREATMENT PLANT NJ0024872 DSW Major	634 Old Corlies Ave Neptune Twp, NJ 07754- 0384 Monmouth County	Leon Moss Bureau of Surface Water Permitting (609)292-4860	Atlantic Ocean SC(C2) Atlantic Coast (Whale Pond to Manasquan)	Surface Water Renewal Permit Action This renewal is for a NJPDES permit to discharge treated, disinfected, domestic wastewater (with industrial contribution) to the Atlantic Ocean (via outfall DSN-001A) which is classified as SC waters. The facility's NJPDES flow value is 8.5 MGD, with a monthly average discharge volume of approximately 5.1 MGD. The outfall configuration consists of a submerged pipe with multi-port diffusers located approximately 50 feet below the mean sea level and 5,800 feet offshore. Residuals generated by this permittee are now regulated under general permit NJG0198200.
VDM METALS USA LLC NJ0104710 DST	306 Columbia Tpke Florham Park, NJ 07932 Morris County	Kerri Standowski Bureau of Nonpoint Pollution Control (609)633-7021	Black Brook FW2-NT(C2) Whippany River	Stormwater Discharge Renewal Permit Action VDM METALS USA LLC has applied for a New Jersey Pollutant Discharge Elimination System (NJPDES) renewal permit to the New Jersey Department of Environmental Protection (NJDEP), Bureau Nonpoint Pollution Control. The facility is engaged in the melting and rolling of high temperature alloys for aerospace applications under the Standard Industrial Classification (SIC) 3356. The existing permit regulates stormwater discharges to the Black Brook classified as FW2-NT C2).

UNITED WATER PRINCETON MEADOWS NJ0089711 DGW	31 Maple Ave Plainsboro, NJ 08536 Middlesex County	Mike Pigliacelli Bureau of Nonpoint Pollution Control (609)633-7021	Raritan-Magothy II-A	Ground Water Renewal Permit Action The facility is a wastewater treatment plant with complete mix activated sludge treatment, phosphorus removal, and dechlorination. The design and discharge capacity of the plant is 1.5 million gallons per day (MGD). The plant receives approximately 1.2 MGD from the Princeton Meadows community and 0.3 MGD from the town of Plainsboro. After secondary treatment, effluent is discharged into an on-site aerated infiltration/percolation lagoon. Excess effluent is then discharged to surface water in accordance with DSW permit NJ0024104.
REGENCY @ SUSSEX APT NJ0029041 DSW Minor	10 Layton Rd Wantage Twp, NJ 07461 Sussex County	Theodore Denberg, P.E. Bureau of Surface Water Permitting (609)292-4860	Unnamed Trib. of Wantage Brook FW2-NT(C2) Wallkill River (below road to Martins)	Surface Water Renewal Permit Action The existing facility discharges treated, disinfected domestic wastewater into an unnamed tributary of o Wantage Brook, classified as FW2-NT (C2) waters. Wantage Brook is located in the Wall Kill River Basin. The existing facility has a NJPDES flow value of 0.080 million gallons per day (MGD) and currently discharges a monthly average flow of approximately 0.019 MGD. This action proposes limitations based upon a flow of 0.080 MGD.
COLTS NECK HIGH SCHOOL NJ0109355 DGW	Five Points Rd & Rt 537 Colts Neck, NJ 07722 Monmouth County	Brian Sage Bureau of Nonpoint Pollution Control (609)633-7021	Red Bank II-A	Ground Water Renewal Permit Action Colts Neck High School is an existing high school serving grades 9 through 12. The functional capacity of the school, including students and staff is 1,390 people. The school includes a cafeteria, gymnasium, science laboratories, and art and home management training facilities.
MARTIN PROPERTY NJ0135160 DGW	25 Rt 206 Hampton Twp, NJ 07860 Sussex County	Brian Sage Bureau of Nonpoint Pollution Control (609)633-7021	Undifferentiated glacial drift II-A	Ground Water Renewal Permit Action The project includes the discharge of sanitary wastewater from a 195,000 square foot commercial building and one residential unit. All sanitary wastewater will be conveyed to a wastewater treatment plant prior to disposal at a subsurface disposal field. The discharge will be monitored prior to the disposal field and at five monitoring wells at the facility.
CLOVE HILL MANOR WTF NJ0137031 DGW	Rt 23 Wantage Twp, NJ 07461 Sussex County	Brian Sage Bureau of Nonpoint Pollution Control (609)633-7021	Brunswick II-A	Ground Water Renewal Permit Action Clove Hill Manor is an age restricted senior housing complex consisting of 117 two (2) bedroom units. Sanitary wastewater generated by the facility will be treated by an on-site treatment plant and discharged to the ground water of the State via a subsurface disposal bed. The wastewater will be treated to Ground Water Quality standards prior to discharge and the flow will be limited to 19,890 gpd.
HILL CROSS CO INC NJ0145998 SIU	543 56th St West New York, NJ 07093 Hudson County	Fayard Ali Bureau of Pretreatment and Residuals (609)633-3823	WEST NEW YORK TOWN MUA STP	Significant Indirect User (SIU) Renewal Permit Action The applicant is an Existing Source under the Federal Categorical Pretreatment Standards for Electroplating with a discharge of less than 10,000 gpd. An average of about 3,000 gpd of regulated electroplating wastewater is discharged to North Hudson Sewerage Authority River Road Wastewater Treatment Plant after treatment.
MONROE MUA ASR WELLS 11 &14 NJ0155691 DGW	Corkery Ln & Black Horse Pk Williamstown, NJ 08094 Gloucester County	Keith Howell Bureau of Nonpoint Pollution Control (609)633-7021	Raritan-Magothy II-A	Ground Water Renewal Permit Action Monroe Township MUA has applied to renew their existing NJPDES-DGW permit. This permit will cover 2 existing Aquifer Storage and Recovery (ASR) wells numbered: ASR well 11, and ASR well 14.

The following minor modifications and administrative permit revocations were recently issued. These actions are listed for informational purposes only and are not open for public comment.
